The Complete Solution

Specialists in laboratory equipment and services, discover the complete solution from Sychem.

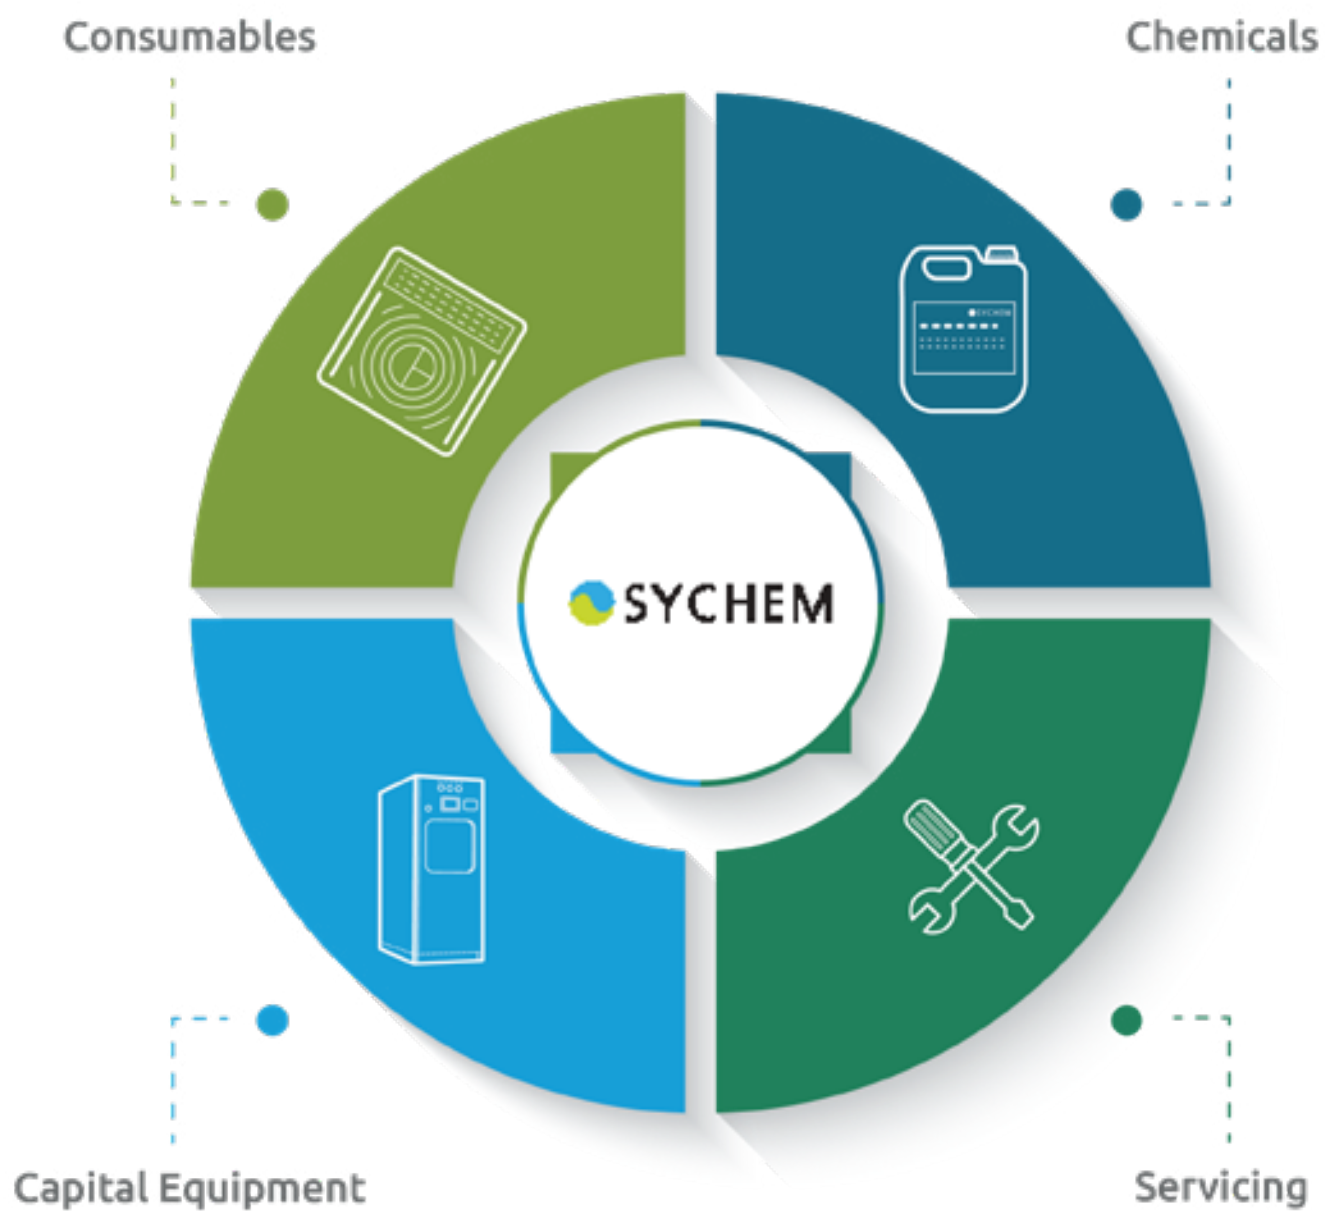

With an emphasis on maintaining a clean and sterile laboratory environment, our complete solution encompasses an extensive portfolio of the most innovative and cutting-edge products and services.

Designed to meet the needs of any sized laboratory, we cater solutions tailored to your unique requirements.

Our Accreditations:

Quality you can trust,

solutions you'll love.

Steelco Partnership

Working in partnership since 2008, Sychem and Steelco provide a complete portfolio of specialist equipment designed to meet the needs of any laboratory.

Our portfolio includes:

- Small and high-capacity glassware washers
- Small, medium and bulk-capacity autoclaves

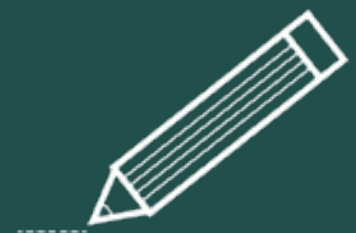

A photograph of a laboratory setting. In the foreground, a white countertop holds a magnetic stirrer with a green beaker, a graduated cylinder with yellow liquid, a flask with blue liquid on a scale, and a round-bottom flask with yellow liquid on a stand. Behind the counter, a grey rack holds several test tubes and beakers. To the right, a large industrial dishwasher with a blue door is open, revealing multiple racks filled with clean glassware. The background shows grey laboratory cabinets.

**LONG-
STANDING
PARTNERSHIP**

Customised Project Support

Our Projects Department specialises in the design, installation, and validation of capital equipment from our extensive portfolio.

Whether for small-scale or large laboratory setups, our expert team delivers tailored, space-efficient solutions that integrate seamlessly with your requirements, ensuring optimal functionality and efficiency.

Glassware Washers & Dryers

Together with Steelco, we provide an extensive portfolio of washer disinfectors designed to support the needs of any laboratory.

Our range includes:

- Small and medium capacity glassware washers
- High-capacity glassware washers

Small-Medium

Our compact washers and dryers share the same washing and drying technology as higher-throughput devices, providing excellent washing results and drying efficacy with a minimal footprint.

High-Capacity

Our high-capacity washers and dryers provide fast, reliable, and efficient washing and drying results. Multiple chamber configurations, state-of-the-art technologies, and machine integrations ensure excellent performance and workflow optimisation.

**We provide the
complete solution for
laboratories**

LAB 1500

Our High-Capacity Glassware Washer and Dryer, ideal for high-volume lab cleaning with flexible configurations.

Featuring the largest chamber capacity with the smallest footprint, up to 8 rack locations, a space-saving vertical door, telescopic rails for easy loading, 65-program control panel, and front chemical access, allowing facilities to clean large quantities of items on a daily basis.

Autoclaves

We provide a complete range of Steelco laboratory autoclaves with a volume ranging from 85 to 9.070 litres to support the needs of any facility.

Our portfolio includes:

- Small-capacity autoclaves
- Medium-capacity autoclaves
- Bulk-capacity autoclaves
- Vertical loading autoclaves

CUSTOMISABLE
SOLUTIONS

Small, Medium & Bulk Capacity Autoclaves

- ✓ **Flexible Configuration**
Single and double door pass-through, manual hinged or automatic space-saving sliding door.
- ✓ **Chamber, Jacket & Doors**
Chamber and internal door(s) made of AISI 316L solid stainless steel.
- ✓ **Piping & Valves**
Process piping and pneumatic valves in copper-brass.
- ✓ **Temperature Probes**
Temperature probes installed in chamber drain and jacket to monitor temperature variations during the cycle.
- ✓ **Eco Technology**
Several water-saving options are available to provide unrivalled efficiency levels.

Vertical Loading

The VS LD Series Vertical Loading Autoclaves provide efficient sterilisation in a compact, free-standing design.

With AISI 316L Stainless Steel, reliable sterilising technology, quick cycle times, and a user-friendly PLC touch screen, it offers high performance with minimal footprint.

Refrigerators for Biosciences

Our premium range of Laboratory Fridges and Freezers ensures the safe and reliable storage of bioscience materials under precisely controlled conditions.

With a focus on energy efficiency, eco-friendly features, and high performance, our solutions provide ultimate reliability for critical Laboratory applications.

Our range includes:

- Laboratory refrigerators from 125L to 610L
- Laboratory freezers from 125L to 610L
- Energy-efficient and eco-friendly cooling solutions
- Advanced temperature control technology

Fridges

Our high-performance Laboratory fridges offer precision temperature control, energy efficiency, and reliable biostorage solutions.

Designed for Bioscience, Pharmaceutical, and Research applications, these units ensure the preservation of sensitive materials with uncompromising quality.

✓ Precision Cooling

Advanced temperature stability for critical material storage

✓ Eco-friendly Efficiency

Sustainable and energy-conscious performance

✓ Reliable Operation

Designed and manufactured for performance and 24/7 reliability

Freezers

Our Laboratory freezers are built for maximum reliability and efficiency, providing secure storage for temperature-sensitive biomaterials.

With advanced insulation and temperature control, these freezers meet the highest standards for Laboratory-grade cold storage.

- ✓ **Superior Insulation**

Advanced thermal protection for sensitive materials

- ✓ **Long-Term Stability**

Consistent performance for critical research needs

- ✓ **User-Friendly Controls**

Intuitive interface for precise adjustments

**Reliable, Efficient,
and Sustainable Cold
Storage for Every Lab**

Equipment Servicing

Being the UK leading provider of equipment services, trust in us to support your facility with our comprehensive range of fully customisable servicing solutions.

Whilst we are specialists in Steelco servicing as a result of our long-standing partnership, we also service all other recognised brands of decontamination equipment.

Machines we service:

- Glassware washers
- Small, medium and bulk-capacity autoclaves

**UK LEADING
SERVICE
PROVIDER**

Planned Preventative Maintenance

Our planned preventative maintenance (PPM) contracts are fully customisable to your needs.

Whether you require weekly, quarterly, bi-annual or annual testing, we have the perfect solution for you.

Validation & Testing

We provide the necessary equipment checks and tests required to ensure your equipment continues operating at the recognised industry standards.

Available independently or included in our fully customisable PPM packages.

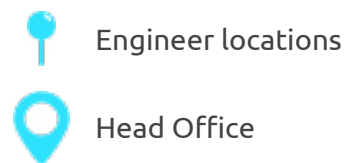

Breakdown, Emergency Support and Repairs

Our emergency breakdown services ensure you are always supported.

Whether your equipment requires a full overhaul or a simple parts replacement, our team will provide the most suitable solution for you.

Our Expert Team:

- Dedicated Resource Coordinators
- Specialist Technical Support Desk
- 35+ Service and Test Personnel

Your Partner in Decontamination

Sychem Direct provides a comprehensive range of high-quality Laboratory consumables designed to enhance decontamination, hygiene, and operational efficiency in Laboratory environments.

Our range includes:

- Glassware Washing Chemicals: 5l glass washer detergent and rinse aid for superior cleaning
- Gloves: Small, medium, large and extra-large nitrile and latex gloves, including exam-grade and cleanroom options
- Air Purifiers: Advanced Airgle systems, from compact to high-capacity models, ensuring optimal air quality for varied environments
- Decontamination Essentials: A full selection of cleaning and sterilisation products tailored to Laboratory applications
