

SYCHEM SYCHEM MIST

Disinfectant Misting System

A single use mist solution for effective, rapid room disinfection at the touch of a button.

Sychem MIST is highly effective against bacteria, viruses, spores, micro bacteria, and fungi. MIST is proven to kill 99.999% of bacteria and is active against SARS-CoV-2. Available in 150ml or 450ml with room misting capabilities of 20 and 50 cubic meters.

The unique nozzle design enables the aerosol to emit a high energy plume of Sychem MIST for an effortless deep clean sanitation. The clean takes no longer than 30 minutes, and offers prolonged microbial efficiency on hard and soft surfaces.

Kills 99.999% of viruses

Effective against bacteria, spores, micro bacteria, fungi and viruses - including SARS-CoV-2.

Lasting microbial protection

Prolonged microbial efficiency providing protection for surfaces weeks after application.

Touch of a button activation

A user-friendly system activated by the push of a button for a deep clean in just over 30 minutes.
