Calcheck
SureTrend™ Cloud
Partnership

Improve your cleaning protocols with accurate quantitative results in 10 seconds!

EnSURE™ Touch

Quality monitoring system

The EnSURE™ Touch is an advanced Hygiene Monitoring system that collects, analyses and reports data in up to 10 seconds. Its smartphone design, simple icons & intuitive navigation make the EnSURE™ Touch the most user-friendly system on the market.

The EnSURE™ Touch gives users the ability to analyse test results across facilities via one interactive dashboard. The EnSURE™ Touch connects to SureTrend™ Cloud via WiFi using SSL encryption, and securely stores all test results. Control access with a robust set of user privileges.

- Compatible with all Hygiena ATP swabs
- Results in 10 seconds
- SureTrend™ Cloud
- 5'' touch screen
- For use in various industries

UltraSnap™

The UltraSnap™ ATP surface test swab is one of the most popular tests on the market. UltraSnap™ is a user-friendly ATP surface test designed for use with Hygiena luminometers.

- Fully recyclable device
- Superior accuracy
- Reproducible results
- Longer-lasting signal strength

Full ATP Range

Working with Hygiena

Sychem and Hygiena have worked in partnership since 2004 to provide a diverse range of ATP Hygiene Monitoring devices and tests. As a result, ATP Hygiene Monitoring can be used in any number of industries to verify the cleaning process has taken place correctly, including Food and Beverage, Food Services, Healthcare, Hospitality, Water Quality, Veterinary & Pet Care, Personal Care & Cosmetics and Industrial & Environmental.

- UltraSnap™

- SuperSnap™

- AquaSnap™ Free

- AquaSnap™ Total

- EnSURE™ Touch

- SystemSURE Plus™

Calcheck

Calibrate your luminometer in seconds! Hygiena's CalCheck is a reliable, easy to use, reusable LED calibration verification device. CalCheck can be used with the EnSURE™ and SystemSURE Plus™.

SureTrend™ Cloud

SureTrend Cloud is a free, easy-to-use data analysis software that unleashes the power of the EnSURE™ Touch. Working with the luminometer, SureTrend™ Cloud wirelessly connects systems across multiple facilities to sync test results and empower users to configure one or hundreds of systems.
