Glass Detergents

Acidic rinse aid and alkaline detergent cleaner.

Providing acidic rinse aid for clear rinsing and prevention of water hardness deposits, our Glass Rinse 1 is ideal for use in all types of glass washers for the neutralisation of alkali detergent following the detergent cycle.

Also designed for use in all types of glass washers is our heavy-duty alkali detergent, Glass Wash 1, which is ideal for the removal of soiling and staining commonly associated with glassware and associated equipment.

Available in 5L and 10L.
